

Dear POWERSKIN+ subscribers, thank you for following our project. We are very excited to be releasing the second newsletter and sharing the project news with you!

NEWS & EVENTS

Our partners from FENIX TNT and Instituto Pedro Nunes designed a poster showcasing the future look of the facade for the IPN building in Portugal, where one of the POWERSKIN+ demonstrations will be taking place. It was designed on a real scale. Have a look at the gallery for more photos of the poster [here](#).

Our partners from POLITO and IPN have created a poster for the IVIS conference. The 15th International Vacuum Insulation Symposium conference was organised by Brunel University London. Check out the poster [here](#).

The POWERSKIN+ coordinator Jorge Corker explained the project developments to experts from the European Commission's Joint Research Centre (JRC) and a delegation from the Regional Coordination and Development Committee of the Portuguese Centre region (CCDRCC). Visit our gallery for more photos.

Our partners from IPN participated in the second edition of TECH@WEEKS, dedicated to Emerging Innovations in Energy and Materials. A space for thematic conversations and demonstration of the activity of technological infrastructures with action framed in the theme has taken place in Sines, Portugal.

Our partners from FRAUNHOFER ICT presented the POWERSKIN+ project at two events:

The K-Messe Fair in Düsseldorf, Germany. The world's most important trade fair for the plastics and rubber industry.

The Foam Expo Europe in Stuttgart, Germany. The largest, free trade fair for technical foam products and manufacturing on the continent.

COOPERATION

PREFAB SYSTEMS
Off-site "Plug-and-Play" prefabricated opaque and transparent multi-functional envelop systems: Lessons and Visions
 SEP. 8TH - SEP. 9TH, 2022, NICE, FRANCE

The POWERSKIN+ project has participated in Europe's #1 destination for EU research collaboration and market opportunities, the 10th annual edition of the Sustainable Places conference 2022. The coordinator Jorge Corker has presented at the "Off-Site Plug-and-Play Prefabricated Opaque and Transparent Multi-Functional Envelope Systems: Lessons and Visions" workshop, which has gathered seven projects that developed hybrid Plug-and-Play systems to exchange experiences and map the technological challenges for the adoption of the developed technologies. Watch the presentation [here](#).

The POWERSKIN+ project has been featured in two [Joined Newsletters](#) and in the [Open Access Government Magazine](#) with cluster projects PLURAL and SWITCH2SAVE.

And participated in the SWITCH2SAVE workshop "Novel approaches to building envelopes designs: smart plug and play systems". Watch the presentation by the project coordinator Jorge Corker [here](#).

Novel approaches to building envelopes designs:
 smart plug and play systems
 On-line workshop | 20 October 2022
